

Water Quality Biological Technician

I.M. Systems Group, Inc. (IMSG) www.imsig.com <<http://www.imsig.com/>> is looking to hire a Water Quality Biological Technician to work at the NOAA National Marine Fisheries Service, Southwest Region in Santa Rosa, California. This is a six (6) month contract to begin in August 2008 and some work can be done remotely several days per week with occasional meetings at the Santa Rosa location.

Responsibilities:

- Review and evaluate NEPA and CEQA documents, permit applications, biological assessments and other water quality related documents to determine potential impacts to marine, estuarine, and anadromous fishery resources.
- Provide results of these evaluations to various NMFS staff in the form of oral or written reports or official correspondence.
- Analyze contaminants data and present findings to staff biologists and coordinate with GIS specialist to display results in graphical format.
- Assist NMFS staff with data analysis and create various reports and correspondence

Job Qualifications:

- Experience with eco-toxicology, risk assessment, fish biology or chemistry would be highly desirable.

To Apply:

Please send your resume in word format to jobs@imsig.com <<mailto:jobs@imsig.com>> with the following subject heading: NOAA07025 - Water Quality Biological Technician. Applicants are encouraged to describe how their knowledge and skills fulfill the requirements of the position. Salary for this position is \$14-15/hr depending on experience.

IMSG is an equal opportunity employer.
